

SPECIES	COMMON NAME	CONDITIONS	SOIL TYPE
TREES			
Acacia dealbata	Silver Wattle	Full sun - part shade	Moist
Acacia implexa	Lightwood	Full sun - part shade	Dry-moist, well drained
Acacia mearnsii	Black Wattle	Sun - shade	Dry-moist, well drained
Acacia melanoxylon	Blackwood	Full sun - part shade	Moist
Acacia pycnantha	Golden Wattle	Full sun - part shade	Dry-moist, well drained
Allocasuarina littoralis	Black Sheoak	Full sun - part shade	Well drained
Eucalyptus baxteri	Brown Stringybark	Full sun - part shade	Well drained
Eucalyptus cephalocarpa	Silver-leaf Stringybark	Full sun - part shade	Moist
Eucalyptus globoidea	White Stringybark	Full sun - part shade	Moist
Eucalyptus goniacalyx	Long-Leaf Box	Full sun - part shade	Dry, poor soil
Eucalyptus macrorhyncha	Red Stringybark	Full sun - part shade	Well drained
Eucalyptus melliodora	Yellow Box	Full sun - part shade	Well drained
Eucalyptus obliqua	Messmate	Full sun - part shade	Moist, well drained
Eucalyptus ovata	Swamp Gum	Full sun - part shade	Moist
Eucalyptus radiata	Narrow-leaf peppermint	Full sun - part shade	Well drained
Eucalyptus viminalis	Manna Gum	Full sun	Moist
Eucalyptus yarraensis	Yarra Gum	Full sun - part shade	Poorly drained
LARGE SHRUBS			
Acacia genistifolia	Spreading Wattle	Full sun - part shade	Dry-moist
Acacia mucronata	Narrow leaf, Sallow Wattle	Full sun - part shade	Well drained
Acacia myrtifolia	Myrtle Wattle	Full sun - shade	Tolerant most soils
Acacia paradoxa	Hedge Wattle	Full sun - part shade	Adaptable
Acacia stricta	Hop Wattle	Full sun - shade	Tolerant most soils
Acacia verticillata	Prickly Moses	Part shade	Tolerant most soils
Bursaria spinosa	Sweet Bursaria	Full sun - part shade	Dry, well drained
Callistemon sieberi	River Bottlebrush	Full sun - part shade	Wet-moist clay soil
Goodia lotifolia	Golden-tip	Full sun - part shade	Well drained
Kunzea leptospermoides	Burgan	Full sun - part shade	Adaptable
Leptospermum continentale	Prickly Tea-tree	Full sun - part shade	Moist well drained
Leptospermum scoparium	Manuka or Black Tea-tree	Full sun - part shade	Moist
Melaleuca ericifolia	Swamp Paperbark	Full sun - part shade	Moist
Melicytus dentatus (Hymenanthera)	Tree Violet	Part shade	Moist
Olearia lirata	Snowy Daisy-bush	Part - full shade	Moist well drained
Olearia ramulosa	Twiggy Daisy-bush	Part - full shade	Moist well drained
Ozothamnus ferrugineus	Tree Everlasting	Full sun - part shade	Moist well drained
Pomaderris aspera	Hazel Pomaderris	Part - full shade	Moist well drained
Pomaderris racemosa	Cluster Pomaderris	Part - full shade	Moist well drained
Prostanthera lasianthos	Victorian Christmas-bush	Full sun - shade	Moist well drained
Viminaria juncea	Golden Spray	Full sun - part shade	Adaptable
SMALL to MEDIUM SHRUBS			
Acacia acinacea	Gold Dust Wattle	Full sun - part shade	Well drained
Acacia aculeatissima	Thin-leaf Wattle	Full sun - part shade	Well drained
Acacia ulicifolia	Juniper Wattle	Full sun - part shade	Moist, well drained
Acrotriche serrulata	Honey Pots	Part shade - shade	Tolerant most soils
Banksia spinulosa var. cunninghamii	Hairpin Banksia	Full sun - part shade	Moist well drained
Cassinia aculeata	Dogwood	Shade	Moist, well drained
Cassinia arcuata	Drooping Cassinia	Full sun - part shade	Well drained
Cassinia longifolia	Shiny Cassinia	Part shade - shade	Moist, well drained
Coprosma quadrifida	Prickly Currant-bush	Part shade - shade	Moist, well drained

SPECIES	COMMON NAME	CONDITIONS	SOIL TYPE
<i>Correa reflexa</i>	Common Correa	Full sun - shade	Well drained
<i>Daviesia latifolia</i>	Hop Bitter-pea	Full sun - part shade	Adaptable most soils
<i>Daviesia leptophylla</i>	Narrow-leaf Bitter-pea	Full sun - part shade	Adaptable most soils
<i>Dillwynia cinerascens</i>	Grey Parrot-pea	Part shade	Dry
<i>Einadia nutans</i>	Nodding Saltbush	Full sun - part shade	Dryish
<i>Epacris impressa</i>	Common Heath	Full sun - part shade	Moist well drained
<i>Goodenia ovata</i>	Hop Goodenia	Full sun - shade	Moist
<i>Hakea decurrens</i> ssp. <i>Physocarpa</i>	Bushy Needlewood	Full sun - part shade	Moist or Dry
<i>Indigofera australis</i>	Austral Indigo	Full sun - shade	Well drained
<i>Myoporum petiolatum</i>	Sticky Boobiolla	Full sun	Dry well drained
<i>Prostanthera melissifolia</i>	Balm Mint-bush	Part - full shade	Moist well drained
<i>Pultenea gunnii</i>	Golden Bush-pea	Full sun - part shade	Well drained
<i>Solanum aviculare</i>	Kangaroo Apple	Full sun - shade	Well drained
<i>Spyridium parvifolium</i>	Dusty Miller	Part - full shade	Well drained
CLIMBERS			
<i>Billardiera mutabilis</i>	Common Apple Berry	Full sun - shade	Dry-moist, well drained
<i>Clematis aristata</i>	Austral Clematis	Full sun - shade	Well drained
<i>Clematis microphylla</i>	Small-leaved Clematis	Full sun - part shade	Well drained
<i>Hardenbergia violacea</i>	Purple Coral Pea	Full sun - part shade	Well drained
<i>Pandorea pandorana</i>	Wonga Vine	Full sun - part shade	Moist well drained
<i>Rubus parvifolius</i>	Small-leaf Bramble	Part - full shade	Well drained
GROUND COVERS			
<i>Acaena novae-zelandiae</i>	Bidgee-widgee	Full sun - shade	Tolerant most soils
<i>Acaena ovina</i>	Australian Sheep's Burr	Full sun - part shade	Dry-moist
<i>Allittia cardiocarpa</i>	Swamp Daisy	Full sun - part shade	Moist
<i>Bossiaea prostrata</i>	Creeping Bossiaea	Part - full shade	Well drained
<i>Brunonia australis</i>	Blue Pincushion	Full sun - part shade	Moist well drained
<i>Centella cordifolia</i>	Swamp Pennywort	Full sun - part shade	Moist - wet
<i>Chrysocephalum semipapposum</i>	Clustered Everlasting	Full sun - part shade	Dry-moist
<i>Coronidium scorpioides</i>	Button Everlasting	Full sun - part shade	Well drained
<i>Craspedia variabilis</i>	Common Billy Buttons	Full sun - part shade	Moist - boggy
<i>Crassula helmsii</i>	Swamp Crassula	Full sun	Aquatic or bog
<i>Dichondra repens</i>	Kidney Weed	Part shade	Moist well drained
<i>Eryngium vesiculosum</i>	Prickfoot	Full sun - part shade	Moist
<i>Geranium solanderi</i>	Crane's Bill	Part shade	Well drained
<i>Glycine clandestina</i>	Twining Glycine	Part shade - shade	Moist, well drained
<i>Gonocarpus tetragynus</i>	Common Raspwort	Full sun - part shade	Moist-dry, well drained
<i>Gratiola peruviana</i>	Austral Brooklime	Part shade - shade	Moist
<i>Hovea linearis</i>	Common Hovea	Part - full shade	Dry well drained
<i>Hydrocotyle laxiflora</i>	Stinking Pennywort	Part - full shade	Moist
<i>Hypericum gramineum</i>	Small St John's Wort	Full sun - part shade	Moist
<i>Kennedia prostrata</i>	Running Postman	Full sun - part shade	Well drained
<i>Lagenophora gracilis</i>	Slender Bottle-daisy	Full sun - part shade	Well drained
<i>Leptorhyncos tenuifolius</i>	Wiry Buttons	Full sun - part shade	Dry, well drained
<i>Linum marginale</i>	Native Flax	Full sun - part shade	Moist well drained
<i>Lobelia anceps</i>	Angled Lobelia	Full sun - part shade	Moist
<i>Lythrum salicaria</i>	Purple Loosestrife	Full sun	Moist
<i>Mentha australis</i>	River Mint	Full sun - shade	Moist
<i>Microseris lanceolata</i>	Yam Daisy	Part shade	Moist well drained
<i>Patersonia occidentalis</i>	Long Purple Flag	Full sun - part shade	Poorly drained
<i>Pelargonium australe</i>	Austral Stork's-bill	Full sun - part shade	Well drained

SPECIES	COMMON NAME	CONDITIONS	SOIL TYPE
<i>Pelargonium inodorum</i>	Kopata	Full sun - part shade	Well drained
<i>Persicaria decipiens</i>	Slender Knotweed	Full sun - shade	Moist
<i>Pimelea humilis</i>	Common Rice-flower	Full sun - part shade	Moist-dry, well drained
<i>Platylobium obtusangulum</i>	Common Flat-pea	Full sun - part shade	Dry well drained
<i>Poranthera microphylla</i>	Small Poranthera	Full sun - part shade	Moist well drained
<i>Pterostylis nutans</i>	Nodding Greenhood	Part - full shade	Moist
<i>Ranunculus inundatus</i>	River Buttercup	Full sun - part shade	Moist
<i>Solenogyne dominii</i>	Smooth Solenogyne	Part shade	Moist, poor
<i>Stackhousia monogyna</i>	Creamy candles	Part sun	Well drained
<i>Stylidium graminifolium</i>	Grass Trigger-plant	Full sun - part shade	Moist well drained
<i>Veronica gracilis</i>	Slender Speedwell	Part - full shade	Moist well drained
<i>Veronica plebeia</i>	Creeping Speedwell	Full sun - shade	Moist well drained
<i>Viola betonicifolia</i>	Showy Violet	Part - full shade	Moist well drained
<i>Viola hederacea</i>	Native Violet	Full sun - shade	Moist
<i>Wahlenbergia communis</i>	Tufted Bluebell	Full sun - part shade	Moist well drained
<i>Wahlenbergia gracilis</i>	Australian Bluebell	Full sun - part shade	Moist well drained
<i>Wahlenbergia multicaulis</i>	Tadgell's Bluebell	Full sun - part shade	Well drained
<i>Wahlenbergia stricta</i>	Tall Bluebell	Full sun - part shade	Well drained
<i>Xerochrysum bracteatum</i>	Golden Everlasting	Full sun	Dry, well drained
LILIES			
<i>Arthropodium milleflorum</i>	Pale Vanilla Lily	Full sun - part shade	Moist
<i>Arthropodium strictum</i>	Chocolate Lily	Full sun - part shade	Well drained
<i>Bulbine bulbosa</i>	Bulbine Lily	Full sun - part shade	Moist well drained
<i>Burchardia umbellata</i>	Milkmaids	Full sun - part shade	Moist well drained
<i>Caesia calliantha</i>	Blue Grass Lily	Full sun - part shade	Moist
<i>Dianella admixta (D. revoluta)</i>	Black-anther Flax-lily	Full sun - part shade	Well drained
<i>Dianella laevis</i>	Pale Flax Lily	Full sun - part shade	Moist well drained
<i>Dianella tasmanica</i>	Tasman Flax-lily	Part shade - shade	Moist
<i>Diplarrena moraea</i>	Butterfly Flag	Full sun - part shade	Well drained
<i>Hypoxis glabella var. glabella</i>	Tiny Star	Part shade	Moist well drained
GRASSES			
<i>Anthosacne scabra</i>	Common Wheat-grass	Full sun - part shade	Well drained
<i>Austrostipa rudis ssp. Rudis</i>	Veined Spear Grass	Full sun - part shad	Moist
<i>Dichelachne crinita</i>	Long-hair Plume Grass	Full sun - part shade	Well drained
<i>Dichelachne rara (D. sieberiana)</i>	Plume Grass	Part shade	Well drained
<i>Microlaena stipoides</i>	Weeping Grass	Full sun - part shade	Moist well drained
<i>Pentapogon quadrifidus</i>	Five-awned Spear-grass	Full sun - part shade	Adaptable
<i>Poa ensiformis</i>	Sword Tussock-grass	Part - full shade	Moist
<i>Poa labillardierei</i>	Common Tussock-grass	Full sun - part shade	Moist
<i>Poa morrisii</i>	Soft Tussock-grass	Full sun - part shade	Moist well drained
<i>Poa sieberiana ssp. Hirtella</i>	Grey Tussock-grass	Full sun - part shade	Adaptable
<i>Poa tenera</i>	Slender Tussock-grass	Part - full shade	Moist well drained
<i>Rytidosperma caespitosum</i>	Common Wallaby Grass	Full Sun - part shade	Moist well drained
<i>Rytidosperma fulvum</i>	Copper-awned Wallaby Gr	Full Sun - part shade	Dry rocky soils
<i>Rytidosperma geniculatum</i>	Kneed Wallaby Grass	Full sun - part shade	Tolerant most soils
<i>Rytidosperma penicillatum</i>	Slender Wallaby Grass	Part shade	Moist well drained
<i>Rytidosperma racemosum</i>	Clustered Wallaby Grass	Full sun - part shade	Dry-moist, well drained
<i>Rytidosperma setaceum</i>	Bristly Wallaby Grass	Full sun - part shade	Adaptable
<i>Rytidosperma tenuius</i>	Purplish Wallaby-grass	Full sun - part shade	Moist well drained
<i>Themeda triandra</i>	Kangaroo Grass	Full sun - part shade	Adaptable
<i>Triglochin striata</i>	Streaked Arrowgrass	Full sun - part shade	Moist, poorly drained

SPECIES	COMMON NAME	CONDITIONS	SOIL TYPE
SEDGES			
<i>Bolboschoenus medianus</i>	Marsh Club-sedge	Full sun - part shade	Moist
<i>Carex appressa</i>	Tall Sedge	Full sun	Moist - boggy
<i>Carex fascicularis</i>	Tassel Sedge	Part shade	Moist
<i>Carex tereticaulis</i>	Common Sedge	Full sun - part shade	Moist, heavy wet
<i>Cyperus lucidus</i>	Leafy Flat Sedge	Part shade	Wet-boggy
<i>Gahnia sieberiana</i>	Red-fruited Saw-sedge	Full sun - shade	Moist alluvial or sandy
RUSHES			
<i>Eleocharis acuta</i>	Common Spike Rush	Full sun	Wet - bog
<i>Isolepis inundata</i>	Swamp Club-rush	Part shade	Moist
<i>Juncus amabilis</i>	Hollow Rush	Full sun - part shade	Moist
<i>Juncus gregiflorus</i>	Green Rush	Part shade	Moist
<i>Juncus holoschoenus</i>	Joint-leaf Rush	Full sun	Moist
<i>Juncus pallidus</i>	Pale Rush	Full sun - part shade	Moist
<i>Juncus pauciflorus</i>	Loose-flower Rush	Part shade	Moist
<i>Juncus planifolius</i>	Broad-leaf Rush	Full sun - part shade	Moist
<i>Juncus sarophorus</i>	Broom Rush	Part shade	Moist
<i>Juncus subsecundus</i>	Finger Rush	Full sun - part shade	Moist
<i>Lomandra filiformis</i>	Wattle Mat-rush	Full sun - part shade	Moist well drained
<i>Lomandra longifolia</i>	Spiny-headed Mat-rush	Full sun - shade	Well drained
FERNS			
<i>Adiantum aethiopicum</i>	Common Maidenhair	Part shade	Moist, well drained
<i>Pteris tremula</i>	Tender Brake	Part - full shade	Moist well drained
AQUATICS			
<i>Alisma plantago-aquatica</i>	Water Plantain	Full sun - part shade	Moist to wet
<i>Marsilea drummondii</i>	Common Nardoo	Full sun - part shade	Boggy
<i>Mazus pumilio</i>	Swamp Mazus	Full sun - shade	Moist
